

1. Choose the correct words and write them on the box.

the Earth

oxygen

planet

plastic bags

recycle

gas

It comes from plants and trees. We need it to live.

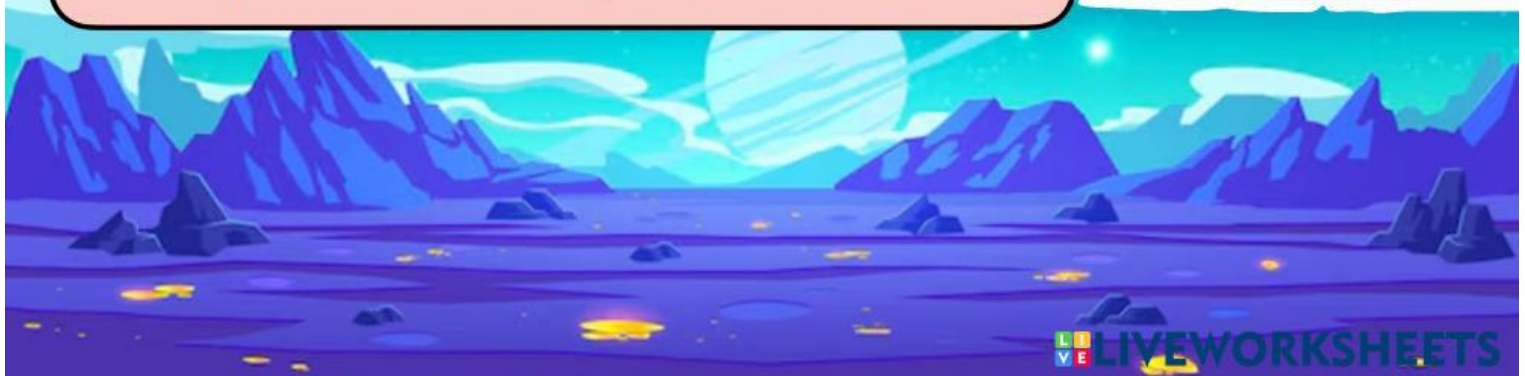

A large round object in space that moves around a star.

The planet we live on.

They are made from plastic. People use them to carry things. They are not good for the planet.

Turn old things into new things again.

It's in the air we breathe. It can move and spread everywhere. Some are good, some are bad.

2. Look and read. Write Yes or No.

THE 3Rs

The 3 Rs are Reduce, Reuse, and Recycle. They help keep the Earth clean and healthy.

- Reduce means using less and making less waste. People can turn off lights, save water, and use fewer plastic bags.
- Reuse means using things again instead of throwing them away. People can reuse paper, bottles, boxes, and bags.
- Recycle means turning old things into new things. Paper, plastic, glass, and cans can be recycled in special recycling bins.

The 3 Rs help reduce pollution and protect plants, animals, and people.

The 3 Rs help the Earth.

Yes

People can recycle old papers.

Reuse means using something again.

People can't reuse bottles and bags.

Turning off lights can save energy.

Reduce means buying new things every day.

Recycling makes the planet dirty.

3. Write a short paragraph about how do you look after the Earth.

- What do you do at home/school to look after the Earth?
- What do you do when you go out?
- Do you recycle paper or bottles? Do you reuse old things?
