## Rosé - On the Ground

My life's been magic, seems  
I used to have a hole in the wall with a mattress  
Funny when you want it, suddenly you        it  
You find out that your gold's just plastic

Every day, every night  
I've been thinking back on        and  
Every day, every night

I worked my whole  
Just to get right, just to be like  
"Look at me, I'm never comin' down"  
I worked my whole  
Just to get high, just to realise  
Everything I need is        the  
Everything I need is        the ground

On the ground  
Everything I need is on the  
Nah, but they don't hear me though  
(Yeah, what goes up must come down)  
Nah, but they don't        me though  
(You're runnin' out of time)

My world's been hectic seems electric  
But I've been waking up  
with your        in my head  
And I'm trying to send a message  
And let you know that every single  
minute I'm without you I        it

Every day every night  
I've been thinking back on you and I  
Every day every night

I worked my whole life  
Just to get right, just to be like  
"Look at me, I'm never comin' down"  
I worked my                life  
Just to get high, just to realise  
Everything I need is on the  
                                 I need is on the ground

On the ground  
Everything I need is on the ground  
Nah, but they don't hear me  
(Yeah, what                up must come down)  
Nah, but they don't hear me though  
(You're running out of time)

### Drag and drop

1. I'm way up in the cloud
2. So far from you now (So far from you now)
3. Just drove by your house (Just drove by your house)
4. Everything I need is on the
5. And they say I've made it now
6. Everything I need is on the ground
7. Everything I need is on the ground (Yeah, yeah)

---

---

But I figured it out

---

---

---

But I figured it out

---

---

On the ground  
Everything I need is on the ground  
Nah but they don't hear me though  
On the  
Nah but they don't hear me though  
Everything I need is on the ground
