Why does the professor say "Why don't you try again?"

- A. The student's answer is not correct.
- B. The professor does not know the answer.
- C. The student's answer is complete.
- D. The professor likes the student's response.

Khi giảng viên đưa ra câu hỏi ... do all the members of a gorilla family sleep in the same place? và mời Chi trả lời, ta có thể nhận thấy Chi trả lời không mấy tự tin Uh... yes, gorilla families always sleep together in the same place. Giảng viên hỏi để xác nhận lại Are you sure, Chi? (Chi có chắc không Chi?) và đưa ra lời đề nghị Why don't you try again? (Chi thử trả lời lại được không?) Như vậy, giảng viên nói câu Why don't you try again? với mục đích là để cho thấy Chi trả lời chưa chính xác. Câu trả lời đúng là A. The student's answer is not correct.
