

R1. EX 2. Đọc đoạn văn sau đây và chọn câu trả lời đúng.

Many people believe that Christopher Columbus **discovered** America in 1492. However, he was not actually the first person to "discover" it. Native Americans were the first people to find America. They walked on a land bridge to America from Asia. Later, around 990 AD the Vikings discovered America in **voyages** from their colonies in Greenland. Some historians also believe that the Chinese discovered America during their sea travels of 1421.

- The word "discovered" in the passage could best be replaced by _____.
A. selected B. developed C. examined D. found
- The word "voyages" in the passage is closest in meaning to _____.
A. travels B. castles C. rowboats D. balloons

R1. EX 3. Đọc đoạn văn sau đây và chọn câu trả lời đúng.

Ancient Greece is thought to be the **root** of European cultures. The Greek culture **influenced** the Romans who spread the Greek ideas through their empire to most of Europe. Ancient Greek culture influenced others in almost every way. It was especially influential in politics, philosophy, science and art. Ancient Greece also invented theater as we know it, and even the Olympic Games. The height of ancient Greek culture lasted for about 1,000 years. Centuries later, European artists, scientists and philosophers studied ancient Greece and were inspired to create the masterpieces of the Renaissance.

- The word "root" in the passage is closest in meaning to _____.
A. basis B. part C. underground D. imitation
- The word "influenced" in the passage could best be replaced by _____.
A. created B. affected C. damaged D. borrowed from
