Unit 4 Test

Name: _____

Class: _____

Give Me Five! 4

Listening

1 Listen and write. Track 10

Big meteorites

Name of meteorite: **(1)** Hoba

How big is it? **(2)** more than _____ square metres

What's it made of? **(3)** _____

Why is it special? **(4)** _____

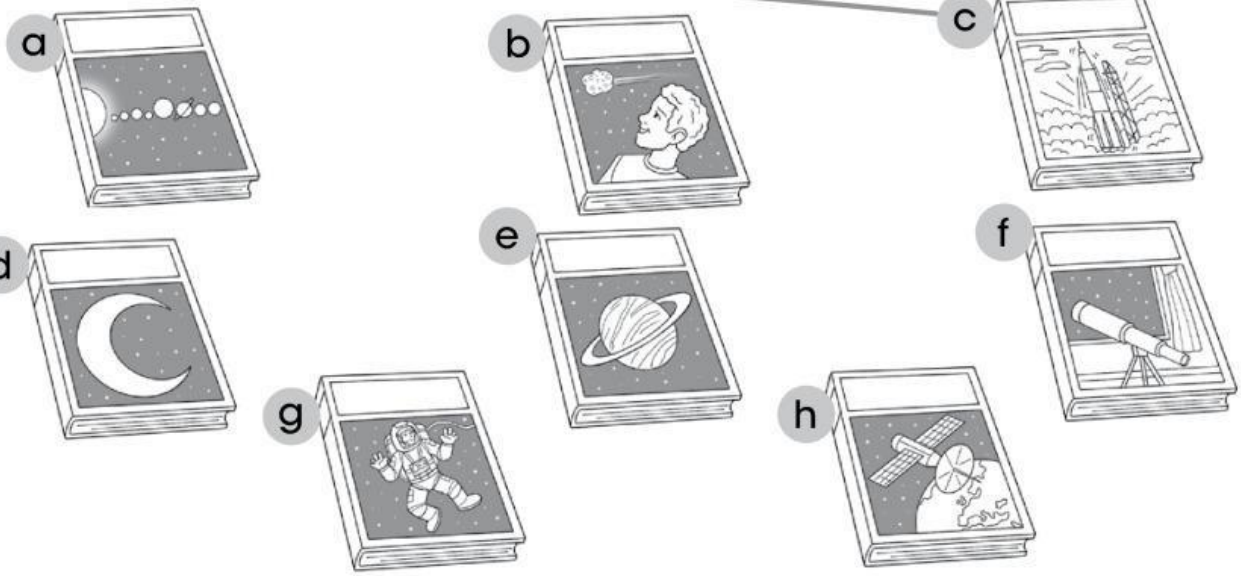

Where is it? **(5)** _____

Who found it? **(6)** _____

10

2 Listen and match. There are two extra books. Track 11

1 Alex — **2** Jane — **3** Katy

4 Sam — **5** Vicky — **6** Nick

Unit 4 Test

Name: _____

Class: _____

Give Me Five! 4

Reading

3 Read and write.

From Galileo's telescope to Hubble

About 400 years ago, Galileo made one of the first telescopes. With his telescope, he could look at the planets, the moon and the Sun more closely. He discovered a lot of interesting things. For example, he saw that there are mountains on the moon and he discovered Jupiter's satellites. He also saw the rings around Saturn.

Today, there are more powerful telescopes than when Galileo was alive. One of the biggest and most important telescopes is Hubble. This telescope is in space and it's very shiny. It travels around Earth very quickly. It's about 13 metres long. Hubble takes photos of stars and planets and sends them back to scientists on Earth. It started taking photos in 1990. Today, thousands of scientists and astronomers use the Hubble telescope to study space.

1 Galileo made his telescope about 400 years ago.
2 He looked at _____, the moon and the Sun with his telescope.
3 Galileo's telescope was less _____ than Hubble.
4 Hubble travels around _____.
5 Hubble is one of _____ telescopes.
6 Hubble sends _____ back to scientists on Earth.

10

4 Look, read and write.

old ~~big~~ tall close small far

the Sun Mercury Venus Earth Bill Fred Mike

1 In this picture, Earth is the biggest planet.
2 In this picture, Earth is the _____ planet from the Sun.
3 Mercury is the _____ planet to the Sun.
4 The _____ planet is hotter than the biggest planet.
5 Bill is the _____ astronaut.
6 Mike is the _____ astronaut.

Class: _____

Give Me Five! 4

Writing

5 Write the superlative adjectives. Look and tick (✓) or cross (✗).

1 Volcano A is **the coldest** (cold) volcano. ☐

2 Volcano B is _____ (big) volcano. ☐

3 Volcano C is _____ (dangerous) volcano. ☐

4 Rocket A is _____ (modern) rocket. ☐

5 Rocket B is _____ (powerful) rocket. ☐

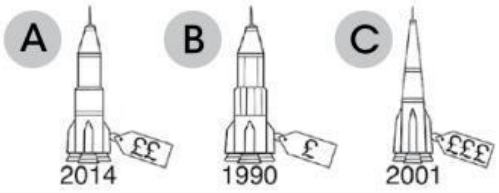

6 Rocket C is _____ (expensive) rocket. ☐

10

6 Look and write sentences with superlative adjectives.

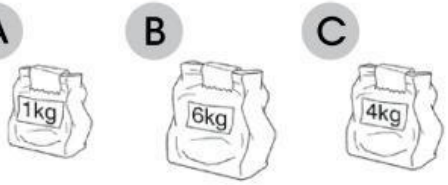

1 (expensive) **Rocket C is the most expensive.**

2 (modern) _____

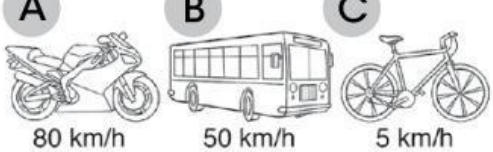

3 (heavy) _____

4 (big) _____

5 (fast) _____

6 (slow) _____
