

***Complete the paragraph about the girls using the given phrases:***

*Music – more – 20 thousand – Dancing – Drama – 65 thousand – 45 thousand – Swimming*

This bar chart shows the numbers (in thousands) of boys and girls joining different after-school clubs in Canada in 2005. The chart compares six different activities and highlights differences between boys and girls.

Similar numbers of girls joined most of the clubs. The number of girls ranged from the highest figure of around (1) \_\_\_\_\_ in Dancing to the lowest figure of approximately (2) \_\_\_\_\_ in Football, a difference of about (3) \_\_\_\_\_.

Girls were most interested in (4) \_\_\_\_\_, while the least popular activity was Football. Large numbers of girls also joined (5) \_\_\_\_\_ and Music clubs.

Girls achieved (6) \_\_\_\_\_ participation than boys in four activities: Drama, Art, (7) \_\_\_\_\_ and (8) \_\_\_\_\_.
