Text A: My Friend Alison

I am so lucky to have my friend Alison. We met when we were only 5 years old and we have been friends for over twenty years. She is always happy, and she has lots of energy and loves adventures. We travelled a lot together after university. Now we are both working we have less time together, but we still enjoy meeting for coffee or dinners in restaurants.

Text B: Friends for 10 years

Tom and I have been friends for 10 years, but I knew him before that from a work trip. He invited me to play football after work one day and we quickly became good friends. We are very similar to each other and we both love sports and competition, but I also like that we can talk about our lives, too.

Text C: Always Fun

Any time I feel a bit sad I know I can call Filip and he will make me feel better. He has a great way of showing me how to enjoy my life and not be too serious. We met about two years ago in a cafe, but it feels like much longer. I'm so happy we met when we did. It's amazing to find a new best friend at my age.

Text D: Help when I need it

I think that true friends are people who you can call when you need help. My friend Katy is that person for me. She always has great advice for me when I need it and she is never too busy to chat. I hope that she feels the same way about me. Best friends are more like family in my opinion.
