Who i am?

My name is Juliana, and I was born on January 12th in Bogotá, Colombia. I lived there with my parents for the first nine years of my life, then in 2020 I moved to Cali, Valle del Cauca, because of my mom's job. I believe my life changed a lot after the move, and although I am happy in Cali, sometimes I miss my life in Bogotá. I consider myself a happy, kind, funny, and sentimental person, especially in special moments. I love dancing because it makes me feel free and happy, and I also enjoy spending time with my family and my friends. In my free time, I like relaxing while watching Disney movies or romantic comedies, going to the gym with my mom, and eating desserts or Italian food with my dad. My favorite dates of the year are my birthday and Christmas because I love to have all my special people around of me.
