

Last Saturday, Maya visited the nature center with her class. The day was sunny and warm.

First, the class took a hike on the nature trail. They saw tall trees, colorful flowers, and a clear stream. Maya spotted a red cardinal singing in a tree.

Next, they went to the discovery room. There were shells, rocks, and animal skulls to examine. Maya learned that turtles have been around for more than 200 million years!

After lunch, the class planted native plants in the garden. Maya and her friends worked together to make the garden a better home for butterflies and bees.

Maya had so much fun and learned a lot about nature. She can't wait to go back!

sunny and warm	слънчево и ветровито	слънчево и горещо	облачно и прохладно
hike	поход	състезание	пътешествие
nature trail	природна картина	природна пътека	горска пътека
clear stream	бистра река	бистър поток	чист поток
discovery room	стая за почивка	стая за хранене	стая за открития
shells	черупки	медузи	охлюви
rocks	черупки	охлюви	скали
animal skulls	черупки на животни	черепи на животни	скелети на животни
