A Visit to the Library

Last Saturday, I visited the library with my mother. The library is a quiet and nice place. There are many books on different topics. First, we got our library cards at the counter. Then, we looked for storybooks. I found a book about space and planets. My mother chose a book on healthy food. We sat in the reading area and read our books for some time. After that, I borrowed my book, and my mother borrowed hers. Before leaving, we returned the books we had brought last week. I love visiting the library because I learn new things every time!
