- D. You can use cell phone here after 4:30 pm

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.

ASIMO (Advanced Step in Innovative Mobility) is a humanoid robot created by Honda in 2000. It is currently displayed in the Miraikan museum in Tokyo, ¹ Japan. ASIMO has the ability to **recognize** moving objects, postures, gestures, its surrounding environment, sounds, and faces, which enables it to interact with humans. The robot can detect the movements of multiple objects by using visual information captured by two ² cameras "eyes" in its head and also determine distance and direction. This feature allows ASIMO to follow or face a person when **approached**. The robot interprets voice commands and human gestures, enabling it to recognize when a handshake is offered or when a person waves or points and then respond accordingly. ³ ASIMO's ability to distinguish between voices and other sounds allows it to identify its companions. ASIMO is able to respond to its name and ⁴ recognize sounds associated with a falling object or collision. This allows the robot to face a person when spoken to or look towards a sound. ASIMO responds to questions by nodding or providing a verbal answer in different languages and can recognize approximately ⁵ ten different faces and address them by name.

Question 31. What is the main idea of the passage?

- A. The history of Honda company
- B. The features and abilities of ASIMO robot
- C. How robots help people at work
- D. The development of artificial intelligence

Question 32. The word "**recognize**" in the passage is closest in meaning to:

- A. Ignore
- B. Identify
- C. Forget
- D. Destroy

Question 33. The word "**approached**" in the passage is opposite in meaning to:

- A. Moved away
- B. Walked toward
- C. Touched
- D. Recognized

Question 34. Which of the following is **NOT** true according to the passage?

- A. ASIMO can recognize human voices and faces.
- B. ASIMO can only answer questions in Japanese.
- C. ASIMO can respond to human gestures.
- D. ASIMO can detect movements of multiple objects.

Question 35. How does ASIMO detect the movement of objects?

- A. By using a microphone
- B. By touching objects
- C. By using two cameras in its head
- D. By hearing sounds

Question 36. What can ASIMO do when it hears a sound?

- A. It can dance.
- B. It can turn its head towards the sound
- C. It can run away
- D. It can switch off.

Four phrases/ sentences have been removed from the text below. For each question, mark the letter A, B, C or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 37 to 40.

Would you like a robot in your house? It is now generally accepted that in the future robots will take over many of our tasks, (37) _____. But it's doubtful if robots will ever be able to do any of the more creative types of work – (38) _____. In the home robots would probably be used to do the cleaning, table-laying, scrubbing and washing up, (39) _____ – at least not in the near future. Robots in the home might not be creative enough to do the cooking, plan the meals, and so on. They would be used as slaves, (40) _____.

A – but it's considered unlikely so far that they will be used to do the cooking

B – or indeed if people would want them to

C – especially jobs of a repetitive nature

D - thereby freeing people to do more of the things they wanted.
