- C. Parking from 8:30 am to 5:30 pm
- D. No passing from 8:30 am to 5:30 pm

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.

In a restaurant, robots can serve food just like waiters and waitresses! Besides, it is interesting to see a robot serving customers. Some fast food chains have already replaced their kitchen team with robots. Robots are not only to serve foods but also cook. Scientists in San Francisco, the US have developed a robot that can automatically **produce** 400 burgers in an hour, carrying out the work of three humans. Japanese restaurants have used restaurant robots for simple tasks such as collecting or washing dishes and cleaning the floor.

Akihiro Suzuki works at Yaskawa Electric, a company that develops robots. He says robots can't do everything a human can, but they can work without becoming **tired**. He says robots can't taste food or change heating levels. But he says if a dish is easily prepared, a robot can repeat the same movement to reproduce the same meal. He says people all over the world now eat sushi, but there are not enough skilled cooks to prepare it. He says his robots can help anyone make sushi. Other robots have been created to help decorate cakes and cut and peel apples.

Question 31. What is the main idea of the passage?

- A. Robots can only serve food in restaurants.
- B. Robots are used in restaurants for different tasks.
- C. Robots can taste food and change heating levels.
