ASSESSMENT 2

BOOK TWO – UNITS 3 AND 4

BY HELEN DORON AND SUSAN SAND

ASSESSMENT 2

BOOK TWO - UNITS 3 AND 4

Your First Name _____

Your Surname _____

Date _____

GOOD LUCK!

RESULTS: For examiner's use only

60 Minutes

Exercise	1	2	3	4	5	6	7	TOTAL
Maximum points	14	16	14	10	6	10	10	80
Result								

TOTAL _____ x 5 ÷ 4 = _____ %

90 Minutes

Exercise	1	2	3	4	5	6	7	8	TOTAL
Maximum points	14	16	14	10	6	10	10	20	100
Result									

TOTAL = ____ /100

1a You're on the computer and you go to all of your friends' blog pages. Several friends have posted pictures about their day and have written messages. Write the numbers of the pictures next to the correct messages. Be careful! There are more messages than pictures. Place an 'X' next to the messages that don't have photos. Match each tag question to the appropriate statement.

1.

2.

3.

4.

5.

6.

- a) I finally used that gift card my parents gave me for a jump with a professional! ____
- b) My crazy cousin from the United States came to visit for a week, and we took some funny pictures. ____
- c) In geography class today, our group picked New Zealand for our presentation. ____
- d) My older sister left for university, so I finally got the big bedroom. ____
- e) I was so excited to be the partner of the cute guy in chemistry class. I hope he didn't notice that I could hardly concentrate on my work! ____
- f) We're finally preparing for the rock concert! Today we started to paint the posters. ____
- g) I finally picked up my phone from the repair shop today. I didn't realise how much I would miss it! ____
- h) I finally found a way to meet that girl in my class that I like. She's great in English, so I asked her to help me with my homework. ____

1b You type a message in reply to your friends. Write the number of the picture next to the most suitable reply.

- a) You're brave! I would never do a thing like that. ___
- b) I really like that country. ___
- c) Do you think he'll ask you to go out on a date? ___
- d) Are you going to ask her to go out on a date? ___
- e) I heard it's going to be the event of the year! ___
- f) Let's all go shopping this weekend! ___

2 Match the *if* clause to the *result clause*.

	If Clause		Result Clause	
e.g.	If there was no water on Earth,	a)	you would know the names of all the constellations.	
1.	If my phone weren't such an important part of my life,	b)	they'll need to rehearse for many weeks.	
2.	If Karstin wants to act in the theatre,	c)	its gases wouldn't be so hot.	
3.	If you were paying attention in science class,	d)	my little brother won't watch them.	
4.	Unless horror movies have ghosts and monsters,	e)	they are probably on a planet in a different galaxy.	
5.	If Mercury were farther from the sun,	f)	he should understand that it's a competitive career.	
6.	If there are other life forms in the universe,	g)	I would see my friends more often.	
7.	If we don't go out to eat before the movie,	h)	we won't laugh at the characters.	
8.	Unless the cast of the movie is fantastic,	e.g. <i>I</i>	i)	there would be no life as we know it.
9.	Unless the play is a comedy,		j)	I'll have a snack at home.

3 Choose the sentence most similar in meaning to the original sentence.

e.g. People who work on stage in a theatre are part of the entertainment business.

a) All people who work in a theatre are in the entertainment business.

b) Stage actors are in the entertainment business.

c) The theatre has been part of the entertainment business for many years.

1. Jessica considered telling her grandparents about the cyberbullying and decided against it since that was Penelope's wish.

a) Jessica didn't tell her grandparents about the cyberbullying although Penelope had asked Jessica to tell them.

b) Jessica's grandparents forced Jessica to tell them about the cyberbullying.

c) Penelope had told Jessica that she didn't want anyone to know about the cyberbullying.

2. Charlie Chaplin could barely read or write when he quit school to become a comedian.

a) Charlie Chaplin knew how to write well when he left school.

b) Charlie Chaplin graduated from high school and then became a comedian.

c) Charlie Chaplin became a comedian even though he could not read well.

3. I've been watching movies since before I could walk.

a) My parents didn't let me watch movies when I was very young.

b) I learned to walk before I started to watch movies.

c) I watched movies when I was just a baby.

4. Because there are many galaxies in the universe, there may be life forms on a planet orbiting a different sun.

a) Planets in different galaxies cannot support life.

b) A sun in a different galaxy may have a planet like Earth.

c) In our galaxy, only Earth can support life.

5. Since microbes can exist in harsh conditions, scientists are looking for microbes on Mars.

a) It is unlikely that forms of life other than microbes exist on Mars.

b) Microbes exist on Earth even when conditions are harsh.

c) Microbes might exist on Mars since they can live in harsh conditions.

6. Because the sun is our source of energy, it's logical to look for life on planets that orbit other suns.

a) Life in other galaxies doesn't need sunlight in order to exist.

b) Life in other galaxies definitely needs sunlight in order to exist.

c) Life in other galaxies likely needs sunlight in order to exist.

7. Movies about outer space are called documentaries if they are about facts and information.

a) Documentaries about outer space provide factual information.

b) A movie about outer space can only be a documentary.

c) Informative movies are always documentaries.

4 Read the text and answer **RIGHT / WRONG / DOESN'T SAY**.

Hi, I'm Ron Talbot. If you could see my picture, you would know my name without being told. You see, I'm quite famous. That happened after I won a big singing competition here. I'd always dreamed of a career in musical theatre, so when a producer offered me the lead part in a big new musical play that included song-and-dance numbers for everyone in the cast, I accepted immediately.

The musical is about an alien who comes to Earth from planet Faraway, which is so far away, astronomers can't see it with a telescope. The planet orbits a different sun, but it has exactly the same conditions for the existence of life that we have on Earth. Therefore, the people look the same. My role was a young alien who falls in love with a human. The play was so popular that it was made into a movie, and I became a movie star.

My problem is, that it bothers me to be recognised everywhere I go. People flash cameras at me and even try to touch me. Sometimes I wish I could go back to being a regular person. Oh well, maybe that's the price of being famous.

	Right	Wrong	Doesn't Say
e.g. Ron played a human in the musical play.		✓	
a) People from Faraway look like little green men.			
b) Astronomers can't see planet Faraway because it is very small.			
c) Ron likes to have his picture taken when he's recognised.			
d) Ron won a singing competition.			
e) Ron has always wanted to record an album.			
f) Ron got famous when he became a movie star.			
g) There is water on planet Faraway.			
h) The movie wasn't as popular as the play.			
i) Ron dances in the play.			
j) Ron had been singing since he was a small boy.			

5 Choose the correct answers to complete the sentences.

e.g. People become astronauts

- a) because they don't like astronomy.
- b) after taking many courses and tests.**
- c) although they are intelligent.

1. The students sold a lot of tickets to the play

- a) so no one came to see it.
- b) because it wasn't interesting.
- c) and the acting was great.

2. Movie stars

- a) are unknown in the entertainment world.
- b) make good salaries.
- c) don't need to work.

3. Jennifer wanted to be a writer

- a) although she became an author.
- b) because she joined a circus.
- c) so she worked at a newspaper.

4. You should eat breakfast

- a) so you don't get hungry at night.
- b) because it's fattening.
- c) because it's an important meal.

5. I studied the performing arts

- a) and as a result, I became dancer.
- b) even though I wanted to act.
- c) but I wanted to learn acting.

6. Astronomers know about the planets

- a) and other objects in space.
- b) and therefore they don't know about stars.
- c) and they can't see them through telescopes.

6 Write two words in each blank of the second sentence in each pair. The words must refer to the first sentence.

e.g.:

Brenda enjoys English class.

Brenda thinks English class is enjoyable.

1. Brenda watches only documentary films on television.

Brenda _____ comedy films on television.
