/ 3

- 2 **02** Listen again. Complete the summary with the correct words.

Ayla did an experiment about the changing states of water. She left the water in the freezer for <sup>1</sup> \_\_\_\_\_ hours until it formed ice. She then took the ice out of the freezer until it melted back into a liquid. She <sup>2</sup> \_\_\_\_\_ the water over a Bunsen burner until it boiled. She used a <sup>3</sup> \_\_\_\_\_ to find out at what temperature the water became a gas.
