Hello, I'm David. This is Gal Gadot and she's my favourite actress. She played role in Wonder Woman film, she's my superhero. Therefore, I also want to be an actor like her. Actor is not an easy job, you need to pretend to be another person and act in front of many people. Next, you have to learn by heart a

script about your character and feel emotions. When you are an actor or actress, you have a chance to meet and talk to many famous people. However, you have to work very hard and don't have much time for your family.

I want to know about one of these jobs below, can you choose one and describe him/her job?

A singer

A journalist

A designer
