Adventure holidays

David

My parents booked this adventure holiday, and to begin with I thought it sounded a bit scary. But in fact, I really enjoyed it. We spent the first week mountain biking. It wasn't as difficult as it looked, and during the week I really improved. Then we moved to a different hotel near a beach for the second week, where we learned to do lots of water sports. That was my favourite part of the holiday. I made friends with some other boys in the hotel.

Hari

We've been on holiday with this company once before, but this time my parents chose France instead of Croatia. The hotel wasn't great this year. It was really crowded and it was hard to get a seat in the dining room. However, the sports and activities were fantastic. In the first week, we did climbing and hiking, and in the second week we went kayaking down rivers. The guides were really friendly, and the other guests were great too.

Nick

We usually have quiet holidays, but this year I really wanted to do something more exciting. I found the website for this company and showed my parents. At first, they were worried it might not be safe, but after they spoke to the staff they started to like the idea. I was so glad when they booked! We had a great time. Mum and Dad met some really nice people, and I loved doing all the sports. We're planning to book with this company again next year.

QUESTIONS 14–18

For each question, choose the correct answer.

Living on a small island

My name is Ben and I'm 17. I live on a small island near Ireland. It's 5 km long with only 200 people. When I was a child, life was great. On small islands, everybody knows everybody, so I always had someone to be with. I played in the fields and on the beach. I went swimming. I even learned to drive on my uncle's farm when I was 11.

I've always enjoyed going to school here. There are only three in my class so we each get lots of time with the teacher. She doesn't live on the island. Sometimes, if the weather is bad, she can't get here, but we still have lessons online. The internet is great for us. We can have friends all over the world and chat and play computer games with them.

I had some difficult times when I first became a teenager. I felt that there wasn't enough for me to do. I even thought about leaving the island because I wanted to have interesting experiences and meet new people. But I decided to stay and now I'm planning to live here when I grow up.

Unfortunately, there aren't many jobs for young people. When I was little, most men were fishermen, like Dad, or farmers, like my uncle. Now there are just a few fishermen. It can be difficult. I've been fishing with Dad sometimes, but I always feel sick on a boat, so I might prefer farming.
