Shekina School

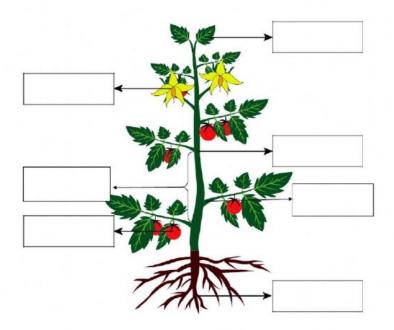

Science Exam - Seven Grade

	acher's name: Yuly Skarleth Navarro Rivas		Grade:	/30
Instructions: Read each statement below carefully, Place a T on the line if you think a statement it TRUE. Place an F line if you think the statement is FALSE. If you have questions, ask your teacher in private. 1. Chemistry studies the matter, energy, the space and the relationship between them	ident's name:		Date:	
line if you think the statement is FALSE. If you have questions, ask your teacher in private. 1. Chemistry studies the matter, energy, the space and the relationship between them	I. <u>True or False.</u> Value: 1 e/o			
3. Physic studies the composition, changes and the properties of matter	 Chemistry studies the matter, energy, the space and the relationship. 	ions, ask your teacher in private. ationship between them		(
Instructions: Match column A with the correct answer on column B. Column B a) Ichthyology It studies mammals. b) Entomology It studies mites c) Helminthology It studies birds d) Herpetology It studies fish f) Anthropology It studies the insects g) Mammalogy It studies the worms h) Malacology It studies the characteristics of the human being It studies amphibian ad reptiles HI. Text Completion part 1. Value: 1 e/o Instructions: Read each statement below carefully and fill in the blanks with the correct answer. Write the branch of physic Give some examples of primary or plastic biolements	3. Physic studies the composition, changes and the properties4. The secondary bioelements constitute 96% of the mass of I	of matterliving beings		(
Column A a) tchthyology b) Entomology c) Helminthology d) Herpetology t) tstudies birds d) Herpetology t) tstudies fish f) Anthropology g) Mammalogy h) Malacology t) tstudies the worms h) Malacology t) Acarology ttstudies the worms tstudies the worms tstudies the worms tstudies the characteristics of the human being ttstudies amphibian ad reptiles ttstudies amphibian ad reptiles Write the branch of chemistry Write the branch of physic Give some examples of primary or plastic biolements	II. Matching. Value: 1 e/o			
a) Ichthyology b) Entomology c) Helminthology d) Herpetology e) Ornithology f) Anthropology f) Anthropology g) Mammalogy h) Malacology h) Malacology f) Acarology f) Acarology f) Acarology f) Acarology f) Acarology f) Acarology f) Testudies the characteristics of the human being first studies amphibian ad reptiles f) Text Completion part 1. Value: 1 e/o Instructions: Read each statement below carefully and fill in the blanks with the correct answer. Write the branch of chemistry Write the branch of physic	Instructions: Match column A with the correct answer	on column B.		
b) Entomology c) Helminthology d) Herpetology e) Ornithology f) Anthropology g) Mammalogy h) Malacology h) Malacology lt studies the worms lt studies and reptiles lt studies and reptiles lt studies and fill in the blanks with the correct answer. Write the branch of chemistry Write the branch of physic	Column A	Column B		
c) Helminthology d) Herpetology lt studies birds e) Ornithology lt studies fish f) Anthropology g) Mammalogy lt studies the insects lt studies the worms h) Malacology lt studies the characteristics of the human being lt studies amphibian ad reptiles II. Text Completion part 1. Value: 1 e/o Instructions: Read each statement below carefully and fill in the blanks with the correct answer. Write the branch of chemistry Virite the branch of physic	a) Ichthyology	It studies mammals.		
d) Herpetology e) Ornithology f) Anthropology g) Mammalogy h) Malacology h) Malacology lt studies the worms lt studies the worms lt studies the characteristics of the human being lt studies amphibian ad reptiles II. Text Completion part 1. Value: 1 e/o Instructions: Read each statement below carefully and fill in the blanks with the correct answer. Write the branch of chemistry It is tudies the worms lt studies the characteristics of the human being lt studies amphibian ad reptiles It studies the characteristics of the human being lt studies the characteristics of the human being lt studies the characteristics of the human being lt studies the worms lt studies the characteristics of the human being lt studies the characteristics of the human being lt studies the worms lt studies the characteristics of the human being lt studies the worms lt studies the characteristics of the human being lt studies the worms lt studies the characteristics of the human being lt studies the worms lt studies the characteristics of the lt studies the worms l	b) Entomology	It studies mites		
e) Ornithology f) Anthropology g) Mammalogy h) Malacology i) Acarology lt studies the worms lt studies the characteristics of the human being lt studies amphibian ad reptiles	c) Helminthology	It studies birds		
f) Anthropology g) Mammalogy h) Malacology t) Acarology lt studies the worms the characteristics of the human being lt studies amphibian ad reptiles lt. Text Completion part 1. Value: 1 e/o Instructions: Read each statement below carefully and fill in the blanks with the correct answer. The branch of chemistry Trite the branch of physic Trite the branch of physic Trite the branch of physic biolements	d) Herpetology	It studies mollusks		
g) Mammalogy h) Malacology It studies the characteristics of the human being It studies amphibian ad reptiles II. Text Completion part 1. Value: 1 e/o Instructions: Read each statement below carefully and fill in the blanks with the correct answer. Trite the branch of chemistry Trite the branch of physic ive some examples of primary or plastic biolements				
h) Malacology It studies the characteristics of the human being It studies amphibian ad reptiles II. Text Completion part 1. Value: 1 e/o Instructions: Read each statement below carefully and fill in the blanks with the correct answer. //rite the branch of chemistry //rite the branch of physic ive some examples of primary or plastic biolements				
i) Acarology the studies amphibian ad reptiles II. Text Completion part 1. Value: 1 e/o Instructions: Read each statement below carefully and fill in the blanks with the correct answer. Arite the branch of chemistry Trite the branch of physic ive some examples of primary or plastic biolements				
II. Text Completion part 1. Value: 1 e/o Instructions: Read each statement below carefully and fill in the blanks with the correct answer. Write the branch of chemistry Write the branch of physic Give some examples of primary or plastic biolements	4			
Instructions: Read each statement below carefully and fill in the blanks with the correct answer. Write the branch of chemistry Write the branch of physic Give some examples of primary or plastic biolements				
Vrite the branch of chemistry Vrite the branch of physic Sive some examples of primary or plastic biolements				
Sive some examples of primary or plastic biolements		Till in the blanks with the correct a	nswer.	
live some examples of primary or plastic biolements				
	rite the branch of physic			
ive some examples of secondary biolements	ive some examples of primary or plastic biolements			
ive some examples of secondary biolements				
	ive some examples of secondary biolements			

IV. Text completion part 2. Value: 5 e/o

1. Write carefully in the correct order the part of a plant:

2. Collocate the plant cell components
