Reading Passage: A Surprise Garden

Paragraph 1
Lily was an eight-year-old girl who loved being outside. Every afternoon after school, she played in her backyard. One sunny day, she found a small packet of flower seeds in the garage. "Let's grow something!" she said with a big smile.

Paragraph 2
Lily asked her dad for help. Together, they dug a few small holes in the ground. Lily carefully put the seeds into the soil and covered them. Then she gave the seeds some water. "Now we have to wait," her dad said.

Paragraph 3
Every morning, Lily ran to the garden before breakfast. She looked at the soil, but nothing was there. She felt a little sad. Her mom smiled and said, "Plants need time to grow. Just keep watering them."

Paragraph 4
One week later, Lily saw tiny green leaves coming out of the ground. She jumped up and down with joy. Each day, the plants grew a little taller. Soon, colorful flowers opened in the warm sunshine. Butterflies and bees visited the garden, too.

Paragraph 5
Lily was very proud of her little garden. She learned that good things take time and care. Now she loves planting flowers with her family every spring. She smiles every time she sees the beautiful garden because she knows she helped it grow.

Exercise 1: Word Puzzle (5 Questions)
