How to train your dog to play basketball

Start by getting your dog to **fetch** a ball and bring it to you. If your dog can't do that, you should stop now. Your dog will probably not make a great basketball player.

Instead of taking the ball directly from the dog, hold a box or container at ground level and make the dog drop the ball into the box. Give the dog a treat every time she correctly drops the ball in the container.

All good dog tricks should be learned in small steps. Every time the dog brings the ball back to you, raise the box up off the ground just a little bit more. Soon the dog will have to stand on her hind legs to reach it. Don't forget to **reward** the dog every time. Once the dog has learned to drop the ball in the container, try using a basketball hoop instead of a box. To begin with, keep the hoop low to the ground. Then gradually raise the height. Reward the dog with a treat each time she gets a basket.

Pretty soon your dog will start jumping to reach the hoop and a basketball star will be born!

Question 31. What is the main idea of the passage?

1. Dogs can learn how to play basketball through training.
2. Some dogs are born knowing how to play basketball.

A. Dogs should be rewarded when they drop the ball in the container.
B. The hoop should be raised gradually over time.
C. All dogs can learn to play basketball.
D. The training starts with a box before moving to a hoop.

Question 35. At the start of training, where should the ball be dropped?

A. Directly into the hoop.
B. Into a box or container.
C. Onto the ground.
D. Into the trainer's hands.

Question 36. Why should the basketball hoop be kept low at first?

A. So the dog does not get scared.
B. So the dog can easily learn to drop the ball in.
C. Because small dogs cannot jump high.
D. Because dogs do not like high places.

The Eiffel Tower is a very famous tower in Paris, France. It was named after the engineer who designed and built it, Alexandre Eiffel. The tower was built in 1889. Alexandre Eiffel was asked to build the tower when France decided to have a big fair to exhibit its goods and wares. The tower was to be located in the middle of the fair as a special attraction. So, Eiffel designed the tower and soon began to build it, using iron beams and bolts. When the structure first started to take shape, the people of France did not like it. They thought it looked like a giant skeleton and was not attractive at all. However, when the tower vas finally completed and lighted up at night, the people quickly changed their minds. It was an **enchanting** sight and looked like a tower made of lace. The Eiffel Tower is sometimes considered one of the seven wonders of the modern world. It is 300 meters high, and people can take an elevator all the way to the top. From the tower, they can get a marvelous view of the city and the River Seine which runs through it. Besides the elevator, there are steps which lead all the way up the tower. For those who are **energetic,** they can use these to climb up. It is very windy at the top of the tower and can be very cold at times because it is only built by iron beams. There are no walls to keep the wind out.
