

Unit 2

Vocabulary **Extend** Worksheet 2.2.2

1 Complete the web with words from the box that name things that can make people ill.

2 Read. Draw a line to connect each word on the left to the word or phrase on the right that best expresses that idea.

- | | |
|------------|-----------------|
| 1. digest | a. an infection |
| 2. treat | b. from illness |
| 3. invade | c. food |
| 4. protect | d. the body |

3 Read. Then tick **T** for *True* or **F** for *False*.

- | | T | F |
|--|--------------------------|--------------------------|
| 1. You can take antibiotics when you have a virus. | ☐ | ☐ |
| 2. You can feel ill if your immune system becomes weakened. | ☐ | ☐ |
| 3. A vaccination can help you survive an illness. | ☐ | ☐ |
| 4. A sore throat is a positive sign that you are feeling better. | ☐ | ☐ |
| 5. Trillions of bacteria cells live inside our bodies. | ☐ | ☐ |
| 6. Being ill can make a person feel an emotion like sadness. | ☐ | ☐ |

4 Read. Write answers to the questions. Use the words in **bold** in your answers. Then share your answers with a partner.

1. How can you **protect** yourself against getting a virus?

2. What **symptoms** do you sometimes have when you're feeling ill?

3. How do some kinds of **bacteria** help us stay healthy?
