2. Language focus

Do you want to make your body stronger? Would you like to move more flexibly? Try yoga. It's a great way to exercise, and it helps relax your body and mind. Yoga can improve your health. It can help you play sports. Yoga can even help you think more clearly!

Do each pose slowly and carefully. Don't move too fast. Hard, fast movements can hurt your body. Wear loose clothing so you can move comfortably, and don't eat before you practice. What's the most important thing? Remember to breathe! And don't forget to relax peacefully for a few minutes after you finish. Practice patiently every day, and enjoy a healthier life!
