

USED TO - CHRIS DAUGTRY

- Listen to the song and put the verbs back in their proper places.

You to me like
I was the only one around
You on me like
The only other choice was falling down
You with me like
We had nowhere we needed to go,
Nice and slow, to no place in particular
We this figured out
We without a doubt
When nights were clear, you were the first star
that I'd see
We this under control
We never thought
We
At least there's you, and at least there's me
Can we get this back?
Can we get this back to how it ?
I for you when
I got lost along the way
I
You always had just the right thing to say
I you
Never really cared where we would go,
Fast or slow, to anywhere at all
