### ACTIVITY #3

READING: Lee el siguiente texto. Selecciona las mejor respuesta para cada pregunta, que encontraras en la siguiente página. Observa el ejemplo

## Reading

Read the following text. Circle the best answer for each question. There is one example.

In recent years, climatic phenomena such as El Niño and La Niña have increased the lack of water in several countries. Fog catchers are nets between two wooden poles that capture water without polluting the environment. Scientists are starting to think that fog catchers can help us collect water in an efficient way. They are especially effective in deserts, mountains and other places that have a lot of fog. In the Atacama Desert in Chile, fog catchers are used for water supply and agriculture with wonderful results. A team of engineers from the Massachusetts Institute of Technology (MIT) is working to improve fog catchers. Scientists believe that, because they are easy to assemble and effective, fog catchers could become a globalized solution for water supply and agriculture all over the world.

0. Where have El Niño and La Niña increased the lack of water?
- a. In the Atacama Desert
  - b. In places that have a lot of fog
  - c. In several countries

LIVEWORKSHEETS

11. What are El Niño and La Niña?
- a. They are objects that collect water.
  - b. They are climatic phenomena.
  - c. They are a solution to the lack of water.
12. What is a fog catcher?
- a. A type of agriculture.
  - b. An object that pollutes water.
  - c. A net that collects water.
13. Why are fog catchers helpful?
- a. Because are useful for collecting water.
  - b. Because they are easy to make.
  - c. Because they are made of wood and a net.
14. Where are fog catchers especially efficient?
- a. Near the ocean.
  - b. In places with a polluted environment.
  - c. In deserts and mountains.
15. What is the MIT team doing?
- a. They are working in the Atacama Desert in Chile.
  - b. They are studying El Niño and La Niña.
  - c. They are working to improve fog catchers.

## ACTIVITY #4

PROJECT: Un ECO-GROUP para evaluar el impacto de las acciones ambientales humanas en tu comunidad.

MODULE // 1 Project

## PROJECT

An eco- group ·to evaluate the impact of human actions on the Colombian environment

1. In groups, collect the information and materials you created in this module. Use the checklist to make sure you have everything you need.

Unit 1 Human Actions and the Environment	Unit 2 Think Green!	Unit 3 Caring For the Environment
Lesson 3, exercises 5-7 Facts about Colombia's eco-concerns <input type="checkbox"/>	Lesson 2, exercise 6 Eco-friendly advice for travellers <input type="checkbox"/> Lesson 3, exercise 3 Information leaflet with suggestions for a school recycling programme <input type="checkbox"/>	Lesson 3, exercises 1-3 Photos and facts about problems in the oceans <input type="checkbox"/> Lesson 3, exercise 4 Article on the Magdalena River <input type="checkbox"/> Lesson 3, exercise 9 News articles about the school eco-footprint <input type="checkbox"/>

2. Decide which information you want to include in your newsletter.
3. Look at the two options for presenting the newsletter. Discuss the advantages and disadvantages of each option: an online newsletter or a poster presentation.
4. Read the suggestions for what to do before, during and after the launch of the newsletter. Can you think of other ideas?

	Online newsletter	Poster presentation
Before	1. Crea un grupo ecológico de max 3 participantes. 2. Escogen su nombre y logo en inglés. 3. Escoger una herramienta tecnológica para realizar una presentación de tu proyecto. Puede ser Prezzi, Powtoons, Cavas etc. Nuestro profesor de tecnología nos apoyará en asesorarte.	
During	1. Busca la evidencia del problema ambiental en tu barrio, toma fotos como evidencia. 2. Una vez ya hayan escogido la herramienta tecnológica para la presentación, debe incluir lo siguiente. - Logo y nombre del grupo en inglés, nombre de integrantes, grado, colegio, nombre del profesor, Ciudad y barrio donde se desarrolla el proyecto	1. Usa las imágenes y las expresiones en inglés aprendidas en clase para describir el problema. 2. Plantea las posibles soluciones del problema en inglés, usando las expresiones aprendidas en clase
