"Welcome to our weekly film review podcast! Today, we're discussing our favourite film genres. Let's start with my absolute favourite: I love a good **1.** _____ film because I enjoy stories about the future, space exploration, and advanced technology. However, my co-host Sarah prefers a completely different style. She loves a heart-warming **2.** _____ because it combines love stories with a lot of laughs, unlike a pure **3.** _____ which can sometimes be a bit too serious.

When we go to the cinema together, we usually compromise on an **4.** _____ film. We both love fast-paced scenes, car chases, and exciting stunts. We never watch **5.** _____ films together because I get too scared by the monsters and jump scares!

If we want something light-hearted, we might pick a **6.** _____ to just relax and laugh, or an **7.** _____ film, which isn't just for children anymore—the artwork is incredible. Occasionally, Sarah drags me to a **8.** _____, where characters suddenly start singing and dancing in the middle of a scene. To be honest, I'd much rather watch a **9.** _____ film with magic, dragons, and epic quests!"
