

## UNIDAD EDUCATIVA PARTICULAR BILINGÜE "CARDENAL SPELLMAN"

## SCIENCE INDIVIDUAL WORK

## FOURTH GRADE

A)	Read the statements and put them in order according to the soil formation with to the source.		
	of the sun.	Smaller pieces convert into very Little particles. This is soil      At night rocks get very cold and contract	
	<ul> <li>The sun heats and expands rocks de</li> </ul>		
	Expansion and contraction make rocks crack      Cracked rocks break down into smaller pieces		
B)	Complete the sentences about soil formation. Use the words from the word bank.		
	SMALLER FREEZES NEW RAIN	WIDEN	
	<ol> <li> falls from the sky and fills the cracks of the rocks.</li> <li>Water inside the cracks and the cracks.</li> </ol>		
	3. The rock breaks down into pieces.		
	4. The smaller particles are the soil and plants can grow.		
C)	C) Write TRUE or FALSE.	Write TRUE or FALSE.	
	1. Wind rubs against rocks and cracks the	Wind rubs against rocks and cracks them	
	2. Rocks never crack.		
	Living organisms release substances on rocks.		
	a 1 mm m	Living organisms hit the rock to break it down.	
5. The rock surface powders down.			
0	5. The fock surface powders down.		
D)	D) Match the element of nature with the corr	Match the element of nature with the correct action.	
	_	lease substances onto rocks surface and rit down.	
	2. Rain ru	bs against rocks to crack and break them out.	
		ats the rock expanding it during the day.	
		s the rock to crack it and break it down.	
		s the cracks of the rock, then this water freezes	
	and wid	den the cracks to break the rock.
