[...] And my strength is in helping others. So, although the war challenges us every day, I was able to create the Teenager Island project, together with the team within the UPSHIFT program [...] to help Ukrainian teenagers (improve/improves) their psychological condition.
[...]
I also (set/sets) goals for the year, month, week, and day. This greatly (improves/improve) my motivation and understanding. But if I don't have the strength to plan, then I (don't/doesn't) make a plan and I don't punish myself for it, and I am happy even for the little things that I have done.
