

The cell and life

27. Unscramble the words:

CEUNUSL

YTOCPALSM

LLAWELLC

NAD

ELLMMEECBRAN

VCLAQUE

CIONHMITDARO

28. Match each cell part with its function:

Nucleus

Cell membrane

Cytoplasm

Vacuole

Mitochondria

Jelly-like substance.

Stores water and food.

Controls the cell.

Produces energy.

Lets things in and out.

29. Look at the picture of the cell. Then, complete the sentences using *there is* or *there are*:

- a nucleus in the cell.
- three mitochondria.
- a cell membrane around the cell.
- three vacuoles inside.
- cytoplasm inside.
- a wall in a plant cell.
