

■ Part 3

Questions 19-23

You will hear five different people talking about using animals in experiments. For questions **19-23**, choose from the list **A-F** each person's argument about using animals for experimental purposes. Use the letters only once. There is one extra letter which you do not need to use.

- A** It is almost always possible to find another way of doing the research.

Speaker 1 **19**

- B** We are acting in accordance with natural laws.

Speaker 2 **20**

- C** It's not that important a problem for me.

Speaker 3 **21**

- D** It's acceptable if it's done in the name of medical research.

Speaker 4 **22**

- E** I plan to become more involved in this issue in future.

Speaker 5 **23**

- F** A friend changed my mind.
