Date: _____

Grade / SD 3 - A / B

TOPIC 1.3: IS IT LIVING?**A. MULTIPLE CHOICE QUESTIONS**

1. Which of the following is a characteristic of living things?

- | | |
|----------------------------|--------------------------|
| a) They can grow | c) They do not move |
| b) They do not need energy | d) They do not reproduce |

2. Which of the following is NOT a characteristic of non-living things?

- | | |
|--------------------------|---------------------|
| a) They do not grow | c) They need energy |
| b) They do not reproduce | d) They can move |

3. What do plants need to grow?

- | | |
|---|-----------------------------------|
| a) Rocks and soil | c) Air and water to drink |
| b) Light from the Sun and water from the soil | d) Plants or other animals to eat |

4. What do animals need to survive? (Select all that apply)

- | | |
|-------------------|-----------------------------------|
| a) Air to breathe | c) Light from the Sun |
| b) Water to drink | d) Plants or other animals to eat |

5. Which of the following is an example of a non-living thing that was once alive?

- | | |
|------------------|----------|
| a) A rock | c) Soil |
| b) A wooden gate | d) Water |

B. TRUE OR FALSE QUESTIONS.

1. Living things can grow, reproduce, move, and require energy.
2. Non-living things can do all the life processes that living things do.
3. Air and water can reproduce.
4. Plants need air to breathe and water to drink.
5. Rocks and soil are examples of non-living things.

C. FILL-IN-THE-BLANKS.

1. Living things are organisms that show the characteristics of life. They can _____, _____, move, and require _____.
2. Non-living things do not _____, reproduce, or need _____.
3. Plants need light from the _____ and water from the _____ to grow.
4. Animals need _____ to breathe and _____ to drink. Animals need _____ or other animals to eat.
5. Some non-living things were once alive. A wooden gate is non-living, but the wood was once alive as it came from a living _____.

D. MATCHING QUESTIONS

Match the term with its definition:

1. Plants	a) Do not grow, reproduce, or need energy
2. Non-living things	b) Need air to breathe, water to drink, and plants or other animals to eat
3. Animals	c) Need light from the Sun and water from the soil to grow
4. Non-living things that were once alive	d) Organisms that show the characteristics of life
5. Living things	e) Wooden gate
