

TASK 1 :

Our free-time activities

A.Lei Wei

I've been a member of the school cooking club since I was ten. I'm best known as a brilliant cake maker. Last year, I made 100 cupcakes for my cousin's 18th birthday party and everyone said they were delicious. Cooking is only expensive if you buy unusual food, like Chinese vegetables that you can't find in a supermarket. I did this and make a special dinner for my Dad when he was 50.

B.Deepak

When I was younger, I became interested in photography when my uncle let me take photos on his big digital camera. I've got my own camera now – I saved my pocket money for a year to buy it and it's fantastic. I love taking photos of people playing sport – it's really difficult to catch them at the right moment so I take several photos. The headteacher has asked me to take the photos at the school fashion show, which will be fun.

C.Romeo

My aunt works for a fashion magazine and wears really cool clothes. I'm different to most boys because I love making clothes for me and my sisters, so I want to study fashion at college. I've already got some experience of the fashion world. With my aunt's help, I won a competition to help get the clothes ready when a famous American photographer came to take photos of models wearing winter clothes. It was a really interesting day and I could earn some money.

TASK 2 : READ AND ANSWER BY WRITING A,B OR C:

Computer games

Three teenagers talk about playing computer games.

Kamil

I spend about five hours a week playing computer games. My parents don't mind because they know it's less time than some teenagers spend on the computer. I've got all kinds of games, but the ones I like most are those where you learn things. I've got a brilliant game called 'History Ship'. It shows you what life was like on sailing ships hundreds of years ago and it's fun to play. There's another interesting game I'd like to get called 'Space Journey'. It's quite expensive, but I think I'll have enough money for it soon.

Mia

Both of my brothers love being outdoors playing football, but the hobby I enjoy most is playing computer games. My parents are OK with that because they think you can learn a lot from playing games. The only thing they say is that I can't play games on the evenings I have homework. I've got a variety of games, but my favourite is called 'Forestworld'. A friend said it was an amazing game, so I was really pleased when I got it as a present for my birthday.

Liam

I've enjoyed playing computer games for as long as I can remember. I have lots of different games, but the one I like most is called 'Sea Adventure'. It's a really great game. I wasn't very good at it at first, but I've improved and can complete the different levels really quickly now. Several of my friends like computer games too, so they come round to my house at the weekend and we play together. It's great fun!

TASK 3 :READ AND CHOOSE THE BEST ANSWER

Rebecca Miles – wildlife presenter

Rebecca Miles has always loved animals. When she was a child, she liked watching documentaries, TV programmes about real people and events. She also enjoyed going to the local zoo with her grandparents. Her father was an environmentalist, someone who works to protect the natural world, and she and her mother often went on trips with him, travelling to Africa and other parts of the world.

Rebecca studied zoology at university and began her career at a wildlife centre in Zambia. She worked with chimpanzees and studied how they live. She was also interested in learning more about big cats like mountain lions. She made her first TV programme when she was 27. It was a documentary about tigers.

While she was in Asia, filming the documentary, she met her future husband, Ray. He was one of the cameramen on the programme. They quickly realized that they shared the same interests and cared about animals in danger. Now Rebecca and Ray work together on many different projects.

Apart from Zambia, Rebecca has travelled and worked all over Africa and Asia, and she and Ray are now planning to take their very first trip to South America to study mountain lions in the Andes. They would like to show where the mountain lions live and what they eat. They're interested in giving people information about the mountain lions and how to protect them.

Rebecca would like to write a book about her work and her life one day. She wants to make people think about the world they live in and all the amazing animals that are in danger. She'd like to show us that

1 As a child, Rebecca went to Africa

- A** with her grandparents.
- B** with her parents.
- C** only with her mother.

2 Rebecca met Ray

- A** when she was working in Africa.
- B** when they were working in Asia.
- C** when he was presenting a documentary.

3 Rebecca and Ray

- A** have not been to South America.
- B** have been to Africa and Asia together.
- C** have worked in Zambia.

4 In the Andes, Rebecca wants to teach people

- A** how to give food to the mountain lions.
- B** how to live next to the mountain lions.
- C** that the mountain lions need our help.

5 One of Rebecca's aims is

- A** to think about dangerous animals.
- B** to become an author.
- C** to make people travel more.

we can help even if we never travel to the places where those animals live.
