

MATHEMATICS EXERCISE: AREA

Name: _____

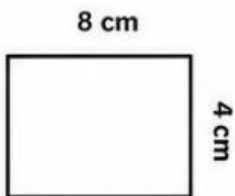

Date: _____

- Area of a rectangle = length $\times$ width
- Total area = Area of shape 1 + Area of shape 2
- Answer unit: cm^2

Find the area of each given shape. Show the calculation and write the answer in cm^2 .

1

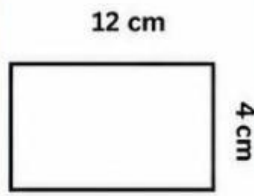

Find the area of the given shape.

Answer: _____

2

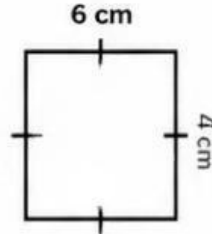

Find the area of the given shape.

Answer: _____

3

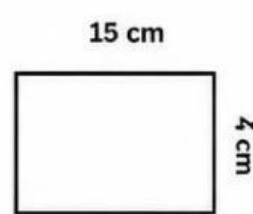

Find the area of the given shape.

Answer: _____

4

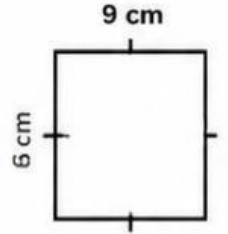

Find the area of the given shape.

Answer: _____

5

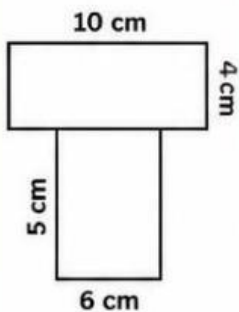

Find the area of the given shape.

Answer: _____

6

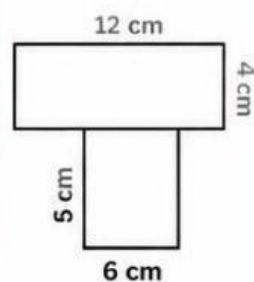

Find the area of the given shape.

Answer: _____

7

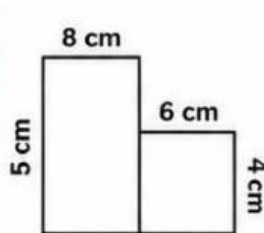

Find the area of the given shape.

Answer: _____

8

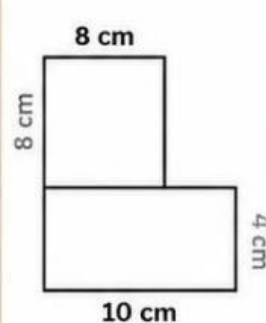

Find the area of the given shape.

Answer: _____

9

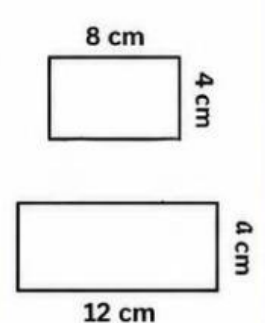

Find the area of the given shape.

Answer: _____

10

Find the area of the given shape.

Answer: _____

Effort + Focus = Success
