

Word Bank

Thermometer, Cordillera, Polar, Glacier, Weather, Beach, Bananas, Trench, Climate, Wind

Part 1: Choose the Best Option (ABC)

Instructions: Read the sentence and circle the correct letter (A, B, or C).

1. What is weather?

- A) The mood of the sky *right now*.
- B) The pattern of the sky over 30 years.
- C) A mountain peak with ice.

2. Which instrument do we use to measure temperature (hot or cold)?

- A) A wind vane.
- B) A thermometer.
- C) A suitcase.

3. What happens to the air temperature as you go higher up a mountain?

- A) It gets hotter.
- B) It gets colder.
- C) It stays the same.

4. What do we call a chain or long line of connected mountains?

- A) A Plain.
- B) A Cordillera.
- C) An Ocean Trench.

Part 2: Matching Lines

Instructions: Draw a line from the concept to its correct description.

Concept

Description

5. Tropical Zone

 Chilly mountain layer where potatoes and corn grow (2,000m - 3,000m).

6. Cold Floor

 Hot climate area near the equator with warmth and rain all year.

Concept	Description
7. Coastal Relief	 Landforms hidden deep under the ocean water.
8. Submarine Relief	 Landforms where the land meets the sea, like beaches and cliffs.

Part 3: Reading & Short Answer

Instructions: Read the story and answer the questions using words from the Word Bank.

"Hello, I am Sara! Today I am visiting a tall mountain. At the bottom on the Warm Floor (0 - 1,000m), it is hot and farmers pick sweet **bananas**. As I climb to the top, above 4,000 meters, I reach the **Glacier** Floor. It is freezing and covered in ice! Tomorrow, I will go down to the coast to walk on the sandy **beach**."

9. What crop grows on the hot Warm Floor?

- Answer: _____

10. What is the name of the freezing floor at the top of the mountain?

- Answer: The _____ Floor.

11. What coastal feature will Sara visit tomorrow?

- Answer: The _____

Part 4: Draw & Label Your Geography

Instructions: Follow the instructions in each box.

12. Draw a Weather Forecast: Draw a **sunny and windy** day.

- Checklist: Draw a bright sun, moving air lines for wind, and a tree bending in the wind!

13. Draw the Mountain Layers: Draw the 4 Bioclimatic Mountain Floors.

- Checklist: Put snow at the top (Glacier Floor), potatoes on the Cold Floor, coffee on the Temperate Floor, and bananas at the bottom (Warm Floor).
