

## **COMPUTERS AND THE INTERNET**

### **Drag and drop(positive and negative aspects of computers and the Internet)**

Computers and the Internet help us visit museums around the world.

We can write an e-mail on the computer and send it through the Net.

We can play computer games for hours.

We can talk to people from various parts of the world .

Computers are bad for our eyes.

Computers can be bad for our eating habits.

We can talk to strangers(people we don't know)

In our free time we can play computer games but not for long.

<b>Positive (+)</b>

<b>Negative (-)</b>
