Adam's Camping Trip

Last weekend, I went to a river. I went camping with my family. I was very excited because it was my first camping trip.

When we arrived, I helped my father put up the tent. Then, we collected some dry leaves and small sticks. My mother prepared some food while my sister and I explored the area.

In the evening, my family sat around a campfire. We cooked some sausages and talked about our day. Later, I felt tired, so I climbed into my sleeping bag. My family had a wonderful time at the campsite.
