

Taking Care of Your Body

Healthy Teeth, Happier You!

Clean
Teeth
Bright
Smiles!

- 1** (a) The Figure 1 below shows two different teeth. Study the diagram and answer the following questions.

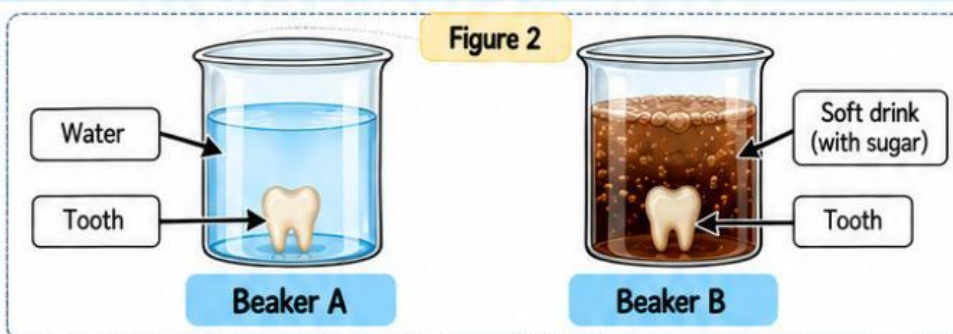

Healthy teeth
help us to eat,
speak and smile
with confidence!

- Your friend Haziq is lazy to brush his teeth every day. Which tooth in Figure 1 is most likely to become his teeth after 6 months?
[1 mark]
- What happen to Tooth B?
[1 mark]
- Give **two** reasons on what causes to have teeth like Tooth B?
1) [2 marks]
2) [2 marks]
- Name **two** food we should eat more in order to have a healthy teeth like Tooth A?
1) [2 marks] 2) [2 marks]
- Name **two** ways on how to have a healthy teeth like Tooth A?
1) [2 marks] 2) [2 marks]

- 2** (b) Sara carries out an experiment in Figure 2 to find out if the sugar in soft drinks can cause tooth decay. She puts a tooth in a glass of water (Beaker A) and another tooth in another glass of soft drink (Beaker B). She then leaves both beakers in a cupboard for one week.

A fair test

means only one thing
(variable) is changed,
while all other
conditions stay
the same.

Her sister Aisyah said this experiment is **not** a fair test. List down **two** ways on how can she improve this experiment?
