Using pushes and pulls

Things you will need:

balloons

string

What to do:

1. Blow up the balloon and tie a knot in it.
2. Cut a piece of string about 50 cm long. Tie one end of the string around the knot in the balloon.

3. Get a friend to help you tie the other end of the string around your wrist.
4. See how many times you can punch the balloon into the air.
