

MANGROVE CONSERVATION

EVIDENCE ANALYSIS WORKSHEET

What Does the Data Tell Us?

Look again at the data you collected. Then trace the chain from problem to effect below.

1 The main problem is:

Describe the main mangrove or coastal problem you identified.

2 The evidence is:

Use specific numbers, observations, or other evidence from your investigation.

3 The possible cause is:

What do you think causes this problem?

4 The possible effect is:

What may happen if this problem is not addressed?

Critical Thinking

Is your evidence enough to support your conclusion? Why or why not?

☐ YES, IT IS ENOUGH

☐ NOT YET

My reason:

NAME / GROUP / CLASS :
