ART 1 – LET'S UNDERSTAND THE PROBLEMS 🌍

Activity 1. Match the problem with its definition.

1. War_____

2. Hunger_____

3. Climate change_____

4. Water scarcity_____

5. Diseases_____

6. Air pollution_____

7. Water pollution_____

8. Soil pollution_____

A. When people do not have enough food to live healthily.

B. When harmful substances contaminate rivers, lakes and oceans.

C. When countries or groups use violence against each other.

D. When the air contains dangerous substances.

E. When there is not enough clean water for people and communities.

F. When the Earth's climate changes over time.

G. When harmful substances damage the land.

H. Health problems caused by viruses, bacteria or other factors

---

PART 2 – SHOULD OR SHOULDN'T? 💡

Activity 2. Choose the best option.

1. To reduce air pollution, governments _____ promote public transportation.

A. should
B. shouldn't
C. would
D. could

2. People _____ throw plastic into rivers.

A. should
B. shouldn't
C. would
D. are

LIVEWORKSHEETS

3. Countries _____ work together to prevent wars.

A. shouldn't
B. should
C. wouldn't
D. aren't

4. People _____ waste clean water.

A. should
B. shouldn't
C. would
D. could

5. Governments _____ create programs to help people suffering from hunger.

A. should
B. shouldn't
C. wouldn't
D. aren't

6. Factories _____ release toxic chemicals into rivers.

A. should
B. shouldn't
C. would
D. could

7. People _____ plant trees to help protect the environment.

A. shouldn't
B. should
C. wouldn't
D. aren't

8. Countries _____ ignore diseases that affect vulnerable communities.

A. should
B. shouldn't
C. would
D. could

LIVEWORKSHEETS

PART 3 – COMPLETE THE SENTENCE ✏️

Activity 3. Choose SHOULD or SHOULDN'T.

Problem	Sentence
Air pollution	People _____ use cars for very short distances.
Water pollution	Factories _____ dump chemicals into rivers.
Hunger	Governments _____ support food programs.
War	Countries _____ solve conflicts through dialogue.
Water scarcity	People _____ waste water.
Soil pollution	Farmers _____ use excessive amounts of harmful chemicals.
Climate change	Governments _____ invest in clean energy.
Diseases	Communities _____ have access to health education.

PART 4 – CHOOSE THE CORRECT OPTION

Activity 4

1. If I were the president, I _____ more money to fight hunger.

A. would invest
B. invested
C. will invest
D. should investing

---

2. If countries worked together, they _____ fewer wars.

A. have
B. would have
C. will have
D. should having

LIVEWORKSHEETS

3. If people used less plastic, there _____ less water pollution.

A. would be
B. will be
C. is
D. should be

---

4. If we had more clean water, fewer people _____ from water-related diseases.

A. would suffer
B. suffer
C. will suffering
D. should suffered

---

5. If governments invested in renewable energy, air pollution _____ lower.

A. would be
B. will be
C. should being
D. is

---

6. If farmers used sustainable methods, the soil _____ healthier.

A. would be
B. will be
C. should being
D. is

---

7. If people cared more about climate change, they _____ more environmentally friendly decisions.

A. would make
B. make
C. will made
D. should making

LIVEWORKSHEETS

8. If every country shared its resources, fewer people _____ from hunger.

A. would suffer
B. suffered
C. will suffer
D. should suffering

PART 5 – COMPLETE THE SECOND CONDITIONAL 🔮

Activity 5

Choose the correct ending.

1.

If I were a world leader, ...

A. I would promote peace.
B. I should promoted peace.
C. I will promoting peace.
D. I wouldn't peace.

2.

If we had more clean water, ...

A. fewer people would get sick.
B. fewer people should getting sick.
C. fewer people will got sick.
D. fewer people are sick.

3.

If factories stopped polluting rivers, ...

A. water ecosystems would recover.
B. water ecosystems should recovered.
C. water ecosystems will recovering.
D. water ecosystems are recover.

LIVEWORKSHEETS

4.

If governments invested in education, ...

A. more people would have opportunities.
B. more people should having opportunities.
C. more people will had opportunities.
D. more people have opportunities yesterday.

5.

If countries stopped fighting, ...

A. millions of people would live more safely.
B. millions of people should lived safely.
C. millions of people will living safely.
D. millions of people are live safely.

PART 6 – WHAT WOULD YOU DO? 🤔

Activity 6. Imagine you are a world leader.

Choose the best answer.

🌍 Situation 1 – WAR

There is a war between two countries. What would you do?

If I were a world leader, I would...

A. promote dialogue and peace negotiations.
B. ignore the problem.
C. create more conflicts.
D. stop talking to everyone.

LIVEWORKSHEETS

🍽️ Situation 2 – HUNGER

Millions of people do not have enough food.

If I had enough resources, I would...

A. create food programs.
B. ignore poor communities.
C. waste food.
D. make food more difficult to access.

🌡️ Situation 3 – CLIMATE CHANGE

The planet is getting warmer.

If I were responsible for environmental policies, I would...

A. promote renewable energy.
B. increase pollution.
C. cut down more forests.
D. encourage people to waste energy.

💧 Situation 4 – WATER SCARCITY

A community does not have enough clean water.

If I could help the community, I would...

A. improve access to clean water.
B. waste more water.
C. pollute the rivers.
D. ignore the community.

LIVEWORKSHEETS

🏭 Situation 5 – AIR POLLUTION

The air in a city is highly polluted.

If I were the mayor, I would...

A. promote public transportation.
B. increase traffic.
C. allow more pollution.
D. eliminate environmental regulations.

🧪 Situation 6 – WATER POLLUTION

A river is contaminated by industrial waste.

If I were responsible for the environment, I would...

A. control industrial waste.
B. allow factories to pollute more.
C. throw more garbage into the river.
D. ignore the problem.

PART 8 – SECOND CONDITIONAL + SHOULD 💡

Esta es la parte que puede hacer que la actividad tenga un nivel más alto.

Activity 7. Choose the best combination.

Example:

If I were the mayor, I would reduce air pollution. People **should** use public transportation.

LIVEWORKSHEETS

1. Climate Change

If I were the president, I would protect forests. People _____ plant more trees.

A. should
B. shouldn't
C. would
D. wouldn't

---

2. Water Scarcity

If our community had less water, we _____ waste it.

A. shouldn't
B. should
C. would
D. are

---

3. Hunger

If I were a world leader, I would fight hunger. Governments _____ support vulnerable families.

A. should
B. shouldn't
C. wouldn't
D. aren't

---

4. Air Pollution

If I were the mayor, I would improve public transportation. People _____ use cars for every short trip.

A. should
B. shouldn't
C. would
D. are

LIVEWORKSHEETS

5. Water Pollution

If I were responsible for the river, I would protect it. Factories _____ dump toxic substances into the water.

A. should
B. shouldn't
C. would
D. could

PART 9 – FIX THE WORLD 🌍

Activity 8. Read each problem and select the best solution.

Problem	Best solution
1. War	A. Promote dialogue / B. Create more weapons / C. Ignore conflicts
2. Hunger	A. Waste food / B. Support food programs / C. Ignore poor families
3. Climate change	A. Burn more fossil fuels / B. Protect forests / C. Waste energy
4. Water scarcity	A. Save water / B. Waste water / C. Pollute rivers
5. Air pollution	A. Use public transportation / B. Increase traffic / C. Burn more fuel
6. Water pollution	A. Dump waste / B. Protect rivers / C. Throw plastic into water
7. Soil pollution	A. Use sustainable farming / B. Pollute the soil / C. Dump chemicals
8. Diseases	A. Improve health education / B. Ignore symptoms / C. Avoid prevention

---

PART 10 – THE WORLD IN 2050 🔮

Activity 10 – Imagine the future

Choose the best option.

1. If countries worked together, the world _____ more peaceful.

LIVEWORKSHEETS

A. would be
B. will be
C. should being
D. is

2. If people recycled more, there _____ less waste.

A. would be
B. will being
C. should
D. is

3. If governments protected forests, many animals _____ their habitats.

A. would keep
B. will keeping
C. should kept
D. are keep

4. If people wasted less water, communities _____ more water available.

A. would have
B. will having
C. should had
D. have yesterday

5. If we used more renewable energy, the air _____ cleaner.

A. would be
B. will being
C. should been
D. is yesterday
