

CONSERVATION ACTIONS

DIGITAL LEARNING WORKSHEET • ANALYZE

Name: _____ Class: _____ Date: _____

Healthy
Mangroves
Healthy Oceans
A Brighter Future

LEARNING GOAL

Rank conservation actions and explain which action should receive the highest priority.

Think about: Which action can make the biggest positive impact on a mangrove ecosystem?

DRAG & DROP CHALLENGE

Instructions: Drag each conservation action from the action cards into the correct priority box. Place the most important action in Priority 1 and the least important in Priority 5.

LIVEWORKSHEETS SETUP: Each action card should be configured as a draggable object; each numbered box should be configured as a drop zone.

ACTION CARDS — DRAG THESE

Planting new
mangrove seedlings

Cleaning up
plastic waste

Educating
the community

Monitoring mangrove
health regularly

Reporting illegal
cutting to authorities

Small Actions
Make a Big
Difference

DROP ZONES — YOUR CONSERVATION PRIORITY

1

HIGHEST PRIORITY

DROP THE ACTION HERE

2

HIGH PRIORITY

DROP THE ACTION HERE

3

MEDIUM PRIORITY

DROP THE ACTION HERE

4

LOW PRIORITY

DROP THE ACTION HERE

5

LOWEST PRIORITY

DROP THE ACTION HERE

EXPLAIN YOUR CHOICE

My highest-priority action is: _____

I think it should be the priority because:

One possible impact on the mangrove ecosystem: _____

⇒ Healthy Mangroves, Thriving Communities ⇐
