Hello!

My name is Tony. I live in Australia, where the seasons are different from many other countries. Our summer starts in December and ends in February. I enjoy summer because we go to the beach and have barbecues in this season.

In spring, my mum plants vegetables like carrots and tomatoes. She's a scientist, but she doesn't like working in the lab much. My dad is a builder and usually works outdoors, so he likes autumn (from March to May) because the weather is cool. My sister Lily wants to be a fashion designer. She always draws and buys new clothes!
