Writing:
Sound and Pitch in Real Life

Think about the sound... its pitch... and why it matters!

Choose a sound that you often hear in your daily life (e.g. a school bell, a phone ring, a motorbike, a bird, etc.). Answer the questions below in complete sentences.

1. What sound have you chosen, and where do you usually hear it?

2. What does this sound sound like?

3. Does it have a high pitch or a low pitch?

4. Why do you think it has a high or low pitch? What happens when the object produces the sound?

5. Can you compare it with another sound? How are their pitches different, and why?

6. Can you think of another situation in real life where choosing the right pitch is important? Explain why.
