

Answer Area

Verification code:

- User1 only
- User3 and User4 only
- User1, User3, and User4 only
- User2, User3, and User4 only
- User1, User2, User3, and User4

Text:

- User1 only
- User3 and User4 only
- User1, User3, and User4 only
- User2, User3, and User4 only
- User1, User2, User3, and User4

Question: 307

HOTSPOT

You have a Microsoft 365 E5 subscription that contains two devices named Device1 and Device2. You manage the devices by using Microsoft Intune. You need to use Device query to meet the following requirements:

- Identify the Windows build on a device.
- Validate whether a folder exists on the C drive of a device.

Which table should you target for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Windows build:

Cpu
OSVersion
SystemInfo
WindowsService

Folder:

DiskDrive
FileInfo
MemoryInfo
SystemInfo

•Remove only corporate data from Device2 and remove the device from Intune when the device checks in.
Which remote action should you use on each device? To answer, drag the appropriate remote actions to the correct devices. Each remote action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Remote actions

Delete

Fresh Start

Retire

Sync

Wipe

Answer Area

Device1:

Device2:

Question: 312

HOTSPOT

You have a Microsoft Entra tenant.

You are creating a dynamic device group named Group1.

Group1 will include only Windows devices that are Microsoft Entra registered.

How should you configure the dynamic membership rule for Group1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

(device.deviceOSType -eq "Windows") and

	▼
device.deviceCategory	
device.deviceOwnership	
device.deviceTrustType	
device.managementType	

 -eq

	▼
"AzureAd"	
"ServerAd"	
"Workplace"	

)

Question: 313

DRAG DROP

You have a Microsoft 365 E5 subscription that is linked to a Microsoft Entra tenant named contoso.com. The subscription contains a user named User1 and a new Windows 11 device named Device1. User1 must enroll Device1 in Microsoft Intune automatically.

You need to ensure that all other users cannot use automatic enrollment.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer Area

Enable Group1 to join devices to Microsoft Entra.

Create a group named Group1 and add User1 to Group1.

Configure the mobile device management (MDM) user scope.

Assign the Cloud Device Administrator role to User1.

Instruct User1 to register Device1 in contoso.com.

Add User1 as a device enrollment manager.

Instruct User1 to join Device1 to contoso.com.

1

2

3

Answer Area

Statements	Yes	No
A user on Device1 must provide credentials to run App2 with elevated access.	☐	☐
A user on Device2 can run App1 with elevated access without providing credentials.	☐	☐
A user on Device3 must provide credentials to run App1 with elevated credentials.	☐	☐

Answer Area

Device1:

▼

Corporate-owned dedicated devices
Corporate-owned devices with work profile
Corporate-owned, fully managed user devices
Personally-owned devices with work profile

Device2:

▼

Corporate-owned dedicated devices
Corporate-owned devices with work profile
Corporate-owned, fully managed user devices
Personally-owned devices with work profile

Device3:

▼

Corporate-owned dedicated devices
Corporate-owned devices with work profile
Corporate-owned, fully managed user devices
Personally-owned devices with work profile

Answer Area

Deploy:

▼

Intune Connector for Active Directory

Microsoft Entra application proxy

Microsoft Tunnel Gateway

The Microsoft Authenticator app

Device types:

▼

Windows 11 only

Windows 11 and Android only

Windows 11 and iOS only

Android and iOS only

Windows 11, Android, and iOS

HOTSPOT

-
You have a Microsoft 365 subscription that includes Microsoft Intune and Microsoft Defender for Endpoint. Users have devices that run Windows 11. You deploy a connection from Defender for Endpoint to Intune. You need to ensure that when a device is enrolled in Intune, the device is onboarded automatically to Defender for Endpoint. What should you configure, and which portal should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer Area

Configure:

▼

An account protection profile
An endpoint detection and response (EDR) profile
An onboarding package for Microsoft Defender

In portal:

▼

Microsoft Defender portal
Microsoft Entra admin center
Microsoft Intune admin center

The subscription contains the dynamic device groups shown in the following table.

Name	Dynamic membership rule
Group1	(device.deviceTrustType -eq "AzureAD") and (device.deviceOSType -eq "Windows")
Group2	(device.deviceTrustType -eq "Workplace")

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements

Yes

No

Device1 is a member of Group1 only.

☐☐

Device2 is a member of Group1 and Group2.

☐☐

Device3 is a member of Group2 only.

☐☐

Question: 322

CertyIQ

DRAG DROP

You have a Microsoft 365 subscription.

You plan to enroll devices in Microsoft Intune.

You need to meet the following requirements:

- Only allow the enrollment of devices that have a specific international mobile equipment identifier (IMEI).
- Support the enrollment and management of up to 1,000 devices.

Which enrollment setting should you configure for each requirement? To answer, drag the appropriate settings to the correct requirements. Each setting may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Enrollment settings

CNAME Validation

Corporate device identifiers

Device enrollment managers

Device limit restriction

Device platform restriction

Answer Area

Only allow the enrollment of devices with a specific IMEI:

Support the enrollment and management of up to 1,000 devices:

Answer Area

Device1:

	▼
Microsoft Entra joined only	
Microsoft Entra registered only	
Microsoft Entra hybrid joined only	
Microsoft Entra joined or Microsoft Entra registered only	
Microsoft Entra registered, Microsoft Entra joined, or Microsoft Entra hybrid joined	

Device2:

	▼
Microsoft Entra joined only	
Microsoft Entra registered only	
Microsoft Entra hybrid joined only	
Microsoft Entra joined or Microsoft Entra registered only	
Microsoft Entra registered, Microsoft Entra joined, or Microsoft Entra hybrid joined	

Question: 326

HOTSPOT

You have a Microsoft 365 E5 subscription that contains the devices shown in the following table.

Name	Platform	Join type
Device1	Windows 11	Microsoft Entra joined
Device2	Windows 11	Microsoft Entra registered
Device3	iOS	Microsoft Entra registered

You need to create two dynamic device groups named Group1 and Group2. The solution must meet the following requirements:

- Group1 must contain Device1 and Device2 only.
- Group2 must contain Device1 and Device3 only.

Which device membership rule should you configure for each group? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Group1:	(device.deviceTrustType -eq "AzureAD") (device.displayName -eq "Device1") and (device.displayName -eq "Device2") (device.displayName -startsWith "Device") and (device.deviceOSType -eq "Windows")
Group2:	(device.deviceOSType -eq "iPhone") and (device.deviceOSType -eq "Windows") (device.deviceOSType -eq "iPhone") or (device.deviceOSType -eq "Windows") (device.deviceTrustType -eq "AzureAD") or (device.deviceOSType -eq "iPhone")

CertyIQ

Note: This section contains one or more sets of questions with the same scenario and problem. Each question presents a unique solution to the problem. You must determine whether the solution meets the stated goals. More than one solution in the set might solve the problem. It is also possible that none of the solutions in the set solve the problem.

After you answer a question in this section, you will NOT be able to return. As a result, these questions do not appear on the Review Screen.

You have a Microsoft Entra tenant named contoso.com.

You purchase an Android device named Device1.

You need to register Device1 in contoso.com.

Solution: You use the Microsoft Intune Company Portal app.

Does this meet the goal?

A.Yes

B.No
