## The Eco School of the Future

"Greener schools. Brighter futures."

Name: \_\_\_\_\_  
Class: \_\_\_\_\_  
Date: \_\_\_\_\_

A CLEANER PLANET STARTS WITH YOU!

### Task 1. Listen and choose the correct answer.

Listen to the conversation and choose A, B or C.

1 When did the "Friends of the Planet" club start?

- A Six months ago
- B A year ago
- C A year and a half ago

6 What will the school grow in its garden?

- A Flowers
- B Fruit
- C Vegetables

2 How many other secondary schools are involved in the group?

- A Five
- B Six
- C Seven

7 What will the chickens provide?

- A Meat
- B Eggs
- C Milk

3 How often does the group meet?

- A Once a week
- B Twice a week
- C Once a month

8 Where will recycling bins be placed?

- A Only in classrooms
- B Only outside
- C In classrooms and around the school

4 Who did the pupils work with to design the eco school?

- A Teachers
- B Scientists
- C Architects

9 What environmental topics will pupils study in Science?

- A Recycling and farming
- B Climate change and global warming
- C Solar panels and electricity

5 How many solar panels will there be on the roof?

- A 15
- B 50
- C 55

10 What will pupils learn to make in Technology lessons?

- A Recycling bins
- B Solar panels
- C School gardens

Same lessons.  
A brighter tomorrow.

## The Eco School of the Future

"Greener schools. Brighter futures."

THINK GREEN  
LEARN SMART  
LIVE BETTER!

It's our future!

Together for a greener tomorrow!

Small changes make a big difference!

### Task 2 Are the statements TRUE or FALSE?

Listen to the conversation and decide if the statements are true (T) or false (F).

- |                                                                                                  | T                        | F                        |
|--------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
| 1 The "Friends of the Planet" club was originally only for pupils from Michael's school.         | <input type="checkbox"/> | <input type="checkbox"/> |
| 2 The group now has members from six other secondary schools.                                    | <input type="checkbox"/> | <input type="checkbox"/> |
| 3 The group has been working on the eco-school project for a year.                               | <input type="checkbox"/> | <input type="checkbox"/> |
| 4 The architects contacted the pupils because they wanted to involve young people.               | <input type="checkbox"/> | <input type="checkbox"/> |
| 5 The school will use solar panels to heat the classrooms.                                       | <input type="checkbox"/> | <input type="checkbox"/> |
| 6 The vegetables grown at school will be used for school dinners.                                | <input type="checkbox"/> | <input type="checkbox"/> |
| 7 The animals will be used to provide meat for the pupils.                                       | <input type="checkbox"/> | <input type="checkbox"/> |
| 8 The chickens will provide eggs.                                                                | <input type="checkbox"/> | <input type="checkbox"/> |
| 9 Every classroom will have recycling bins.                                                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 10 All the lessons at the eco school will be completely different from lessons at other schools. | <input type="checkbox"/> | <input type="checkbox"/> |

### Task 4 Match the people/things with the information.

Listen again and match 1-5 with A-E.

- |                         |                          |                                         |
|-------------------------|--------------------------|-----------------------------------------|
| 1 Friends of the Planet | <input type="checkbox"/> | A will provide eggs                     |
| 2 Architects            | <input type="checkbox"/> | B will be used for school dinners       |
| 3 Solar panels          | <input type="checkbox"/> | C contacted the pupils                  |
| 4 Vegetables            | <input type="checkbox"/> | D will save money on electricity        |
| 5 Chickens              | <input type="checkbox"/> | E is the name of the environmental club |

### Task 5 Listen and put the ideas in the order you hear them.

Write numbers 1-6.

- ☐ recycling bins
- ☐ solar panels
- ☐ the school garden
- ☐ environmental issues in Science
- ☐ animals
- ☐ low-energy light bulbs

### Task 6 Listen and choose the statement that best summarizes Michael's project.

Which statement best explains the main idea of the eco-school project?

- A The project is mainly about reducing the school's expenses by producing food and electricity itself.
- B The project combines environmentally friendly technology, sustainable use of resources and changes in education to create a more environmentally responsible school.
- C The project is mainly designed to teach pupils how to grow food and look after farm animals.
- D The project aims to replace traditional school subjects with lessons about climate change and renewable energy.

A cleaner planet begins with you! ♥
