**TIER 3 – Working Beyond Grade Level**

**CASE-BASED READING & APPLICATION  
Case:**

Three Grade 9 students, Sara, Mariam and Noor, are planning for university. They want to live together in an apartment close to their college. The apartment is cheaper than living alone, so they can **save money**. It is also close to buses and shops, making it easy to **get around town**. They agree to share household jobs and **keep clean**. However, Sara is worried about **privacy** because she needs quiet time to study. Mariam suggests creating a separate study corner. Noor suggests making a weekly schedule for using the shared spaces. They also agree to avoid borrowing too much money because they do not want to graduate with **debt**.

**Questions:** 1. What are **two advantages** of the students' housing choice?

2. What problem might Sara face, and why?

3. How do Mariam and Noor suggest solving the problem? 4. Why do the students want to avoid debt? 5. **Would this housing arrangement work well for the three students? Use two details from the case to support your answer.**
