Dream Jobs

Crocodile Researcher

I have a great job. I study crocodiles! It's an important job. Let me explain why. Here in Australia, we have a lot of crocodiles, but sometimes the crocodiles are sick. I want to know why. I study the food the crocodiles eat. I also learn how fast they grow and where they live. How do I do this? Well, in the morning, I take my camera, and I watch the crocodiles in the river. I take photos. Sometimes the crocodiles eat toads. Some toads make them sick and they die. I want to help the crocodiles.

Ice Cream Flavor Expert

Believe it or not, I taste ice cream for my job. Yes, it's a dream job, but it's also difficult! I work at a big ice cream company. Every day, I taste lots of different flavors three times each. Why is that? Well, I taste a little of the ice cream we make in the morning, afternoon, and at night. That way, I know that all the ice cream is good. I use my eyes first: Does the ice cream look nice? Then I taste the ice cream with a spoon: Does it taste fresh and sweet? Then I spit it out. Yes, I really spit it out!
