Task 2: Detailed Matching - Healthy Dining & Venues (5 items x 2.0 points = 10.0 points)

Match each person (6-10) with the most suitable Healthy Venue Option (A - H).

PEOPLE & REQUIREMENTS:

- **6. Maya (Vegan & Juices):** Maya is a university student who follows a strict vegan diet. She is searching for a quiet organic cafe that serves fresh custom salad bowls, cold-pressed fruit juices, and raw desserts. She requires complimentary high-speed Wi-Fi, accessible power sockets to charge her laptop for evening study sessions, and needs the venue to remain open until at least 8:30 pm on weekdays.
- **7. Oliver (Fitness & Protein):** Oliver is an athlete preparing for a marathon who wants a high-protein lunch menu (lean grilled chicken, egg bowls, and protein shakes) located adjacent to a sports complex. He needs early morning opening from 6:30 am before his morning training, a sunny outdoor dining terrace, and a 15% discount for local sports club members upon presenting a valid card.
- **8. Sophia (Gluten-Free Bakery):** Sophia has a severe gluten allergy and requires a specialized 100% gluten-free bakery serving sugar-free pastries, organic herbal teas, and fresh artisan breads. She wants a cozy indoor seating area with comfortable armchairs to read books peacefully, and needs private customer car parking available right behind the building.
- **9. Ethan (Seafood Dining):** Ethan is organizing a Sunday family lunch for six people, including young children. He wants a casual oceanfront restaurant featuring fresh daily catches, grilled local fish, and a dedicated child-friendly junior menu. He requires an outdoor wooden terrace with panoramic sea views, free customer parking, and an online table booking system.
- **10. Zoe (Asian Noodle Bar):** Zoe and her friends are looking for a fast plant-based Asian noodle bar offering stir-fry vegetable noodles, tofu dishes, and vegan spring rolls. She needs quick takeaway service, late-night opening until at least 10:00 pm, and a 20% discount for students who show a valid student ID card.

HEALTHY VENUES OPTIONS (A - H):

A. Green Life Organic Cafe

A tranquil plant-based cafe offering organic custom salad bowls, cold-pressed fruit juices, and sugar-free raw fruit smoothies. Features complimentary high-speed Wi-Fi, numerous wall power sockets, and quiet corner tables ideal for studying or laptop work. Open daily from 8:00 am until 9:00 pm, situated near the central library.

B. Powerhouse Fitness Bistro

Located directly adjacent to the municipal sports complex, this fitness bistro opens every morning at 6:30 am. Serves lean protein meals including grilled chicken breast, egg bowls, and whey protein shakes, alongside a bright outdoor dining terrace. Members of local sports clubs receive a 15% discount upon showing their membership card.

C. Wok & Roll Asian Express

A vibrant Asian noodle bar specializing exclusively in stir-fried vegetable noodles, crispy tofu stir-fry, and vegan spring rolls. Open daily until 10:30 pm, offering rapid takeaway service and a 20% discount for students presenting a valid school ID card.

D. The Pure Bakery & Tea Room

A cozy boutique bakery specializing strictly in 100% gluten-free artisan breads, sugar-free fruit tarts, and organic herbal teas. Features comfortable armchair seating in a quiet indoor dining hall, along with a dedicated free customer car park located directly behind the premises.

E. Ocean Breeze Seafood Grill

A charming oceanfront restaurant serving fresh daily catches, grilled local fish, and seafood platters, alongside a child-friendly junior menu for families. Features a spacious outdoor wooden terrace offering panoramic views across the sea, complimentary customer parking, and an easy online table reservation system.

F. The Garden Juice House

A lively outdoor patio bar offering organic cold-pressed juices, fruit smoothies, and gluten-free berry tarts. Features outdoor seating in a natural garden setting and free customer parking. However, it does not serve salad bowls or warm food, lacks Wi-Fi and power outlets for laptop users, and closes early at 6:00 pm daily.

G. Sunnyside Morning Diner

An early-morning diner opening at 6:00 am with a sunny outdoor terrace and a 15% sports club discount. Serves traditional breakfast items such as fried bacon, sausages, and heavy syrup pancakes, but lacks high-protein fitness meals, lean grilled meats, or protein shakes.

H. The Noodle House & Grill

A popular Asian restaurant famous for spicy beef noodles, grilled pork ribs, and seafood stir-fry. Open until 11:00 pm with takeaway service and student discounts, but focuses entirely on meat and seafood dishes with no plant-based or vegan noodle choices.

Task 3: Reading Comprehension - Article Analysis (5 items x 2.0 points = 10.0 points)

Read the article below about 'Youth Action for Ocean Conservation' and choose the correct answer (A, B, C, or D).

GUARDIANS OF THE DEEP: YOUTH ACTION FOR OCEAN WILDLIFE

Every year, an estimated eight million metric tons of plastic waste enter the world's oceans, posing a severe threat to marine ecosystems and sea creatures. From sea turtles mistaking floating plastic bags for jellyfish to seabirds ingesting tiny microplastic fragments, the impact of ocean pollution is devastating. However, a growing movement of passionate teenage environmentalists across the globe is taking determined action to protect marine habitats.

One inspiring initiative began in a coastal town in California, where sixteen-year-old student Leo Martinez organized a local beach cleanup project called 'CleanTides'. What started as a small weekend gathering of five classmates quickly expanded into a nationwide youth network. Using social media to raise awareness, Leo's group has collected over fifteen tons of plastic waste from beaches and rivers over the past two years, preventing trash from ever reaching open ocean waters.

In addition to physical cleanups, young activists are utilizing technology to address marine pollution. A team of teenage engineering students in the Netherlands recently designed an automated floating solar-powered barrier capable of trapping floating plastic debris in river mouths before it enters the sea. Educators agree that empowering youth is essential for long-term conservation. By running workshops in schools and encouraging local bans on single-use plastics, these young leaders prove that age is no barrier to creating meaningful environmental change.

11. What is the writer's primary purpose in writing this article?
 - A. To explain the chemical composition of different ocean plastics.
 - B. To highlight how young people are taking active steps to combat ocean pollution.
 - C. To criticise national governments for failing to clean public beaches.
 - D. To persuade readers to pursue university degrees in marine biology.
12. According to paragraph 2, how did Leo Martinez's project 'CleanTides' develop?
 - A. It was started by a famous international charity and handed over to Leo.
 - B. It began with five classmates and grew into a nationwide youth movement.
 - C. It received immediate government funding to hire professional cleaners.
 - D. It focused exclusively on cleaning deep ocean waters using large ships.
13. What technological innovation created by Dutch teenage students is described in paragraph 3?
 - A. A solar-powered floating barrier that collects plastic waste in rivers.
 - B. A submarine device that cleans microplastics from underwater coral reefs.
