

Instructions: Read each text or situation carefully. Choose the best answer by circling A, B, C, or D.

1. Read the text.

At school, students started a recycling project. They collected used bottles, paper, and cans. After collecting the materials, they sorted them before processing them. The students learned that recycling means collecting and processing used materials to make new products.

What is the main purpose of the students' project?

- A. To buy new bottles and cans.
- B. To turn used materials into useful new products.
- C. To collect materials without sorting them.
- D. To throw away all used materials.

2. Read the text.

Rina brought several empty glass bottles to the recycling project. Her teacher explained that recycled glass can be used to make new bottles or jars.

What can be made from recycled glass according to the text?

- A. New books and paper.
- B. New clothes and bags.
- C. New bottles or jars.
- D. New wooden tables.

3. Read the situation.

The students have collected old plastic and metal objects. Their teacher asks them to continue the recycling process. The next step is to cut the old plastic and metal into small pieces.

Why are the materials cut into small pieces?

- A. To make them look new.
- B. To make them easier to throw away.
- C. To continue the recycling process.
- D. To separate them from the students.

4. Read the text.

Dina found an empty plastic bottle near the school garden. Instead of throwing it into the regular trash, she put it with the other recyclable materials.

What can we infer about Dina?

- A. She does not know about recycling.
- B. She wants to make the garden dirty.
- C. She understands that some waste can be recycled.
- D. She wants to collect rubbish for decoration.

5. Read the text.

The class collected paper, glass, plastic, and metal. The teacher asked the students to separate the materials before processing them.

Which activity should the students do first after collecting the materials?

- A. Sort the materials.
- B. Make new products immediately.
- C. Throw everything away.
- D. Mix all the materials together.

6. Read the text.
