| 4. Are they the students | | e. speaks English well? |
| 5. Is this the cafeteria | | f. go to the college? |

Interesting Animals

Hello. My name is Tanya. I come from Belize.

Rainforests are amazing places. They have big trees and a lot of plants. My family went hiking in a rainforest last year. It rained every day!

Many animals live in the rainforest. There are a lot of interesting mammals, such as monkeys and sloths. Some mammals in the rainforest are very dangerous!

My favorite animals in the rainforest are birds. The birds I like the most are toucans and parrots. They both have beautiful feathers, but toucans are less colorful. They are both very intelligent and make big nests. They both eat fruits and flowers.

Let's keep animals safe!
