SECTION 2. READING COMPREHENSION

MY FAVORITE SCHOOL CLUB

My name is Alex, and I am fifteen years old. I live with my parents and my younger sister. I go to a small school near my house, and I really enjoy school life.

My favorite place at school is the technology club. The club meets every Tuesday and Thursday after classes. We usually meet at 4:00 p.m. in the computer room.

There are twelve students in the club. Some students like computers, and others like photography or music. We are different, but we have fun together and help each other.

I usually work with my friend Leo. We like making simple digital projects. Sometimes we create presentations, and sometimes we make short videos about school activities.

Our teacher, Mr. Brown, is very friendly. He teaches us how to use different computer programs. He also helps us when we have problems with our projects.

On Thursdays, we sometimes take photos around the school. We photograph the garden, the sports area, and interesting school events. I like photography because I can be creative.

After the club, I go home at about 6:00 p.m. I have dinner with my family and then I do my homework. On some evenings, I also watch videos or listen to music.

I really like the technology club because I learn new things and spend time with my friends. I want to continue in the club next year. Maybe one day I can work with technology.
