Read the text below. Then answer the questions.

My Favorite Place

My favorite place is the public library in my city. I go there at least twice a week. The library is not very big, but it is comfortable and quiet. I love reading books there because it helps me learn new things and relax.

In the library, I can find many kinds of books, such as story books, science books, and English books. There are also computers if I want to search for information. The people there are always kind and helpful.

I usually go to the library after school. Sometimes I go with my friends. We read books, study, and even do our homework there. I really enjoy my time at the library. It is one of my favorite places in the city.
